Export Fidelity Fixture (AT-115)

Everything below must appear in HTML/PDF/DOCX output or carry a *documented, visible* fallback — never a silent omission.

Headings through every level

Level three

Level four

Level five

Level six

Links and images

External link, local sibling — wait, use a real path: GFM.

Tables

Name	Role	Notes
Ada	CEO	left-center-right
Grace	Eng	second row

Code

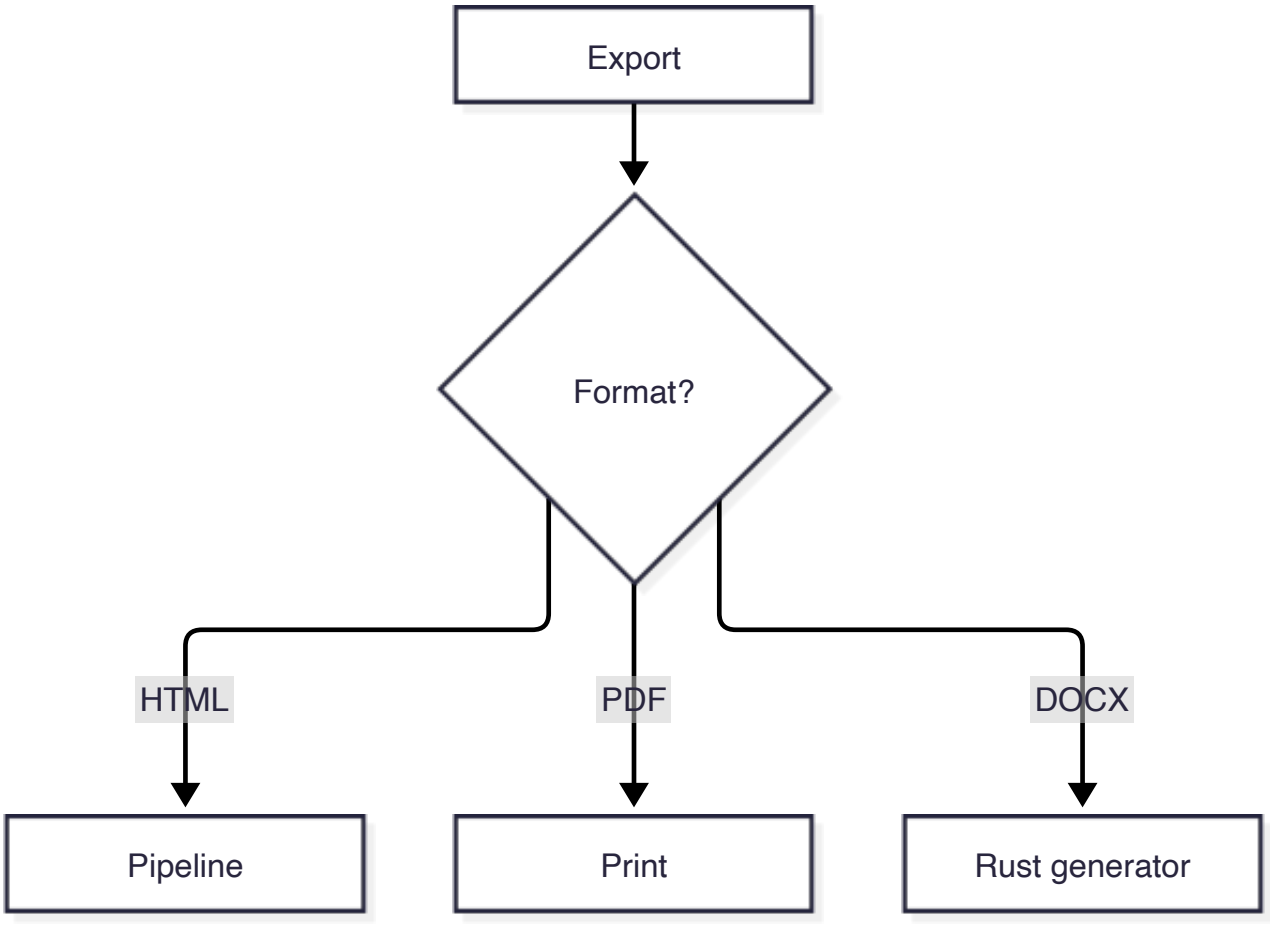

```
def answer() -> int:
    return 42
```

Math

Inline $e^{i\pi} + 1 = 0$ and block:

$$\oint_\gamma f(z)\,dz = 2\pi i \sum \text{Res}$$

Mermaid

Lists and tasks

- one
- two
  - nested
- three
- ☐ unchecked task
- ☑ checked task

Blockquote

> A quoted paragraph with **bold** and `code`.

End of export fixture.
